

Trolleys and Tools for Outdoor Cleaning, Landscape Maintenance and Operational Cleaning

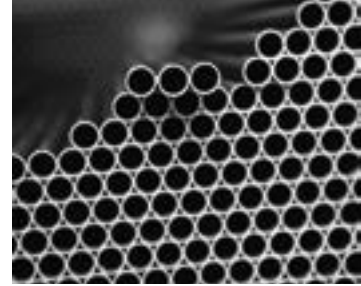

Made in Germany

Since 1875, FLORA has specialized in the development and production of high-quality, durable gardening tools and equipment. Right from the start, FLORA established the values that it still stands for today: quality, technology and expertise. Our customers can rely on us – we are here for them. Worldwide and with all our heart.

Steel and aluminium

Steel and aluminium are materials that are ideally suitable for the challenges of everyday use in nature. They offer countless design possibilities and are a good choice for the sustainable use of our resources. We use these materials in our products to ensure that they are durable and resistant to the elements.

Competence creates quality

A qualified team, our innovative capabilities and the use of advanced technologies guarantee high-quality products. We are responsible for the entire process chain, from development to manufacturing and assembly to delivery.

Picobello

Picobello Mini

Trolley with one axle, large puncture-proof wheels, fixed holder for bin liner. Aluminium, galvanised, powder-coated steel, PU 1

Model	Fixed holder for bin liners
Number	01421

Model	Performa ¹
Number	01421/100

Picobello Compact

Trolley with one axle, large puncture-proof wheels, fixed holder for bin liner or with removeable bag holder. Aluminium, galvanised, powder-coated steel, PU 1

Model	Fixed holder for bin liners
Number	01422/1

Model	Removable holder for bin liners
Number	01422/2

Model	Performa ¹
Number	01422/100

¹ with fixed holder for bin liners, Greifboy 01150/90, aluminium shovel 02485/9, streetbroom 01512/42, suitable handles

Removable refuse bag holder

The Compact and City models are optionally equipped with a bag holder.

Hand compartment with lid

The Picobello Mini offers a spacious storage compartment with a swivel lid and lock.

Footrest

The Picobello Mini and Compact have a sturdy footrest and solid rubber buffers.

Vertical tool holder

The Picobello Mini is very compact and stands out thanks to its vertical tool holder.

Shovel holder

The Picobello Mini has a secure holder for a shovel with the head facing downwards.

Height-adjustable handle

On all Picobello trolleys, the height of the handle can be adjusted using four screws.

Picobello

Picobello City

Trolley with two axles, large puncture-proof wheels, brake at the rear, fixed holder for bin liner or with moveable bag holder. Aluminium, galvanised, powder-coated steel, PU 1

Model	Fixed holder for bin liners
Number	01423/1

Model	Removable holder for bin liners
Number	01423/2

Model	Performa ¹
Number	01423/100

Picobello Metropol

Trolley with two axles, large puncture-proof wheels, brake at the rear, fixed holder for bin liner. Aluminium, galvanised, powder-coated steel, PU 1

Model	Fixed holder for bin liners
Number	01424

Model	Performa ²
Number	01424/100

Front swivel casters

(optional)

Front swivel casters suitable for the Picobello City, for increased mobility on smooth surfaces. Plastic rim, metal housing, ø 125 mm, PU 1

Number	01432/03
--------	----------

¹ with removeable holder for bin liners, Greifboy 01150/90, aluminium shovel 02485/9, streetbroom 01512/42, suitable handles

² with Greifboy 01150/90, aluminium shovel 02485/9, streetbroom 01512/42, suitable handles

Hand compartment with storage space

Picobello Compact, City and Metropol have a lockable hand compartment with additional storage space for direct access.

PU wheels

The Picobello wheels are puncture-proof and can be replaced in seconds for maintenance or replacement.

Swivel casters at the front

Swivel casters are available as an optional extra for the Picobello City to enhance mobility.

Brake

Picobello City and Metropol have a brake that is operated with the foot and ensures a secure hold.

Horizontal tool holder

Picobello Compact, City and Metropol feature a horizontal holder for tools.

Easy

A Handle

- Height-adjustable handle
- Can be mounted on both sides
- For ergonomic handling of the trolley

B Function

- Lightweight frame
- Functional equipment holders
- Steel reinforcements

C Wheels

- Pneumatic tyres with \varnothing 260 mm
- Puncture-proof wheels optional
- Suitable for difficult terrain

Sustainability

- Robust and durable construction
- All individual parts can be dismantled, availability guarantee until 2035
- High availability of wear and spare parts
- Regional sourcing of raw materials

Made in Germany

Easy

Easy Original

Compact, lightweight trolley for large garbage bags for regular use, even on difficult terrain. Aluminium, powder-coated profile frame made of galvanised steel, holder for litter picker, holder for 120 l garbage bag, dimensions L 37 × W 50 × H 150 cm, weight 5 kg, for self-assembly, PU 1

Leaf rakes

A Steel

- High-strength spring steel adjustment rail
- Broad, sturdy bow
- Tines made of rolled spring steel

B Quality

- Precise connection between bow and adjustment rail
- Four reinforced outer tines

C Function

- Double-curved shape for efficient working
- Socket \varnothing 28 mm

D Plastic

- Resistant plastic with high elasticity at low temperatures
- Low weight with maximum stability

Sustainability

- Chrome VI-free surface finish on all metal leaf rakes
- Use of recyclable and reprocessed materials
- Regional sourcing of raw materials

Made in Germany

Metal leaf rakes

Professional leaf rake with closed socket (adjustable)

Robust, hard-wearing leaf rake for daily and professional use, adjustable working width. Closed socket, 22 flat tines, four reinforced outer tines, galvanised, high-strength spring steel adjustment rail, reinforced bow, PU 10

Width (cm)	32 – 48
Tines	22
Number	02779

Professional leaf rake with U-bolt socket (adjustable)

Robust, hard-wearing leaf rake for daily and professional use, adjustable working width. Closed U-bolt socket, 22 flat tines, four reinforced outer tines, galvanised, high-strength spring steel adjustment rail, reinforced bow, PU 10

Width (cm)	32 – 48
Tines	22
Number	02789

Professional leaf rake (fixed)

Robust, hard-wearing leaf rake for daily and professional use. 22 flat tines, four reinforced outer tines, galvanised, reinforced bow, PU 10

Width (cm)	45
Tines	22
Number	02777

Wire rake

Robust, hard-wearing leaf rake with hard tines for efficient sweeping and light scarifying work. 22 round tines, reinforced bow, galvanised, PU 10

Width (cm)	45
Tines	22
Number	02785

Leaf rake

For routine applications, including home use. 22 flat tines, galvanised, PU 10

Width (cm)	45
Tines	22
Number	02776

Fixed leaf rake (top), adjustable leaf rake (bottom)

Wide leaf rake

Light, thorough working leaf rake for sensitive surfaces, even minimal unevenness. Aluminium carrier, stainless steel rake contour, 590 g, PU 10

Width (cm)	56
Tines	28
Number	02703

Small leaf rake

Narrow leaf rake for flower beds, garden beds and hedges. Galvanised steel, PU 10

Width (cm)	29
Tines	11
Number	02701

Plastic leaf rakes

Landscaping rake

Extra large, light leaf rake for dealing with large areas efficiently. Ideal for raking leaves and hedge cuttings. Tough plastic, socket \varnothing 28 mm, PU 10

Width (cm)	80
Tines	30
Number	02780

Combination tool leaf rake and fork

High-quality and stable combination tool for raking and scooping of leaves and grass cuttings. Polyamide, socket \varnothing 28 mm, PU 10

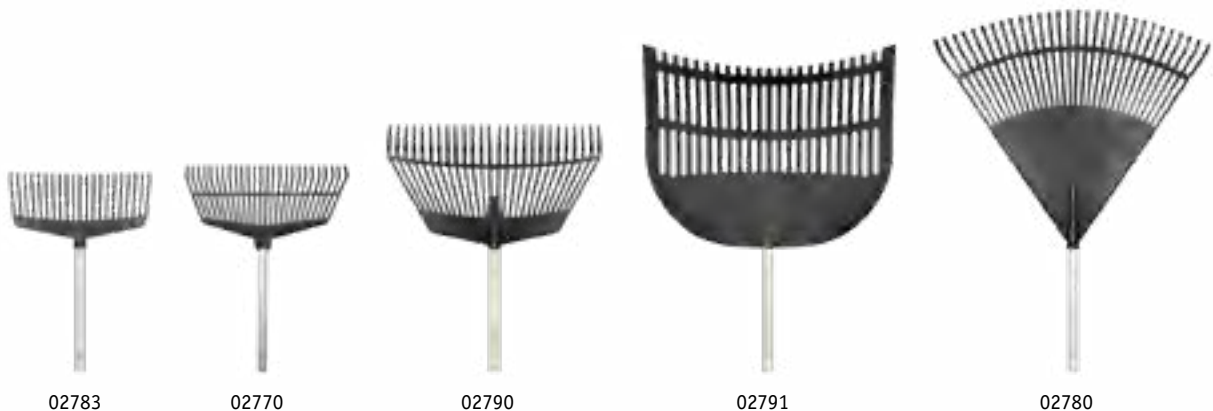

Width (cm)	60
Tines	26
Number	02790

Leaf scoop

Large flexible leaf scoop for collecting leaves and grass from lawn areas. Polypropylene, PU 5

Width (cm)	70
Tines	60
Number	02791

02783

02770

02790

02791

02780

Garden rake, polyethylene

Light, easy-to-handle universal rake, e.g. fresh lawns or gravel surfaces. Polyethylene, threaded socket ø 24 mm, PU 10

Handle Number	Without 02770
----------------------	-------------------------

Handle Number	Aluminium 02771
----------------------	---------------------------

Garden rake, polyamide

Lightweight, robust universal broom made of high-quality polyamide with elastic tines, for leaves and grass cuttings. Polyamide, socket ø 28 mm, PU 10

Width (cm)	38
Tines Number	20
	02783

Tool handle

Handles for leaf rakes and leaf scoop. Numerous versions, ø 28 mm, PU 10

Length (cm)	140
Material	Beech

Landscaping rake (top), leaf scoop (bottom)

Rakes

A Stability

- Rake head made of hardened carbon steel
- Strong screw connection between head and handle mount

B Function

- Patented head angle adjustment
- Wide range of variants and sizes available

Sustainability

- Chrome VI-free surface finish
- Regional sourcing of raw materials
- Robust and durable construction
- High availability of wear and replacement parts

Made in Germany

Steel rakes

Professional smoothing rake (hardened, adjustable)

Robust all-purpose rake with patented adjustability of the head angle for professional use. Insert socket, hardened, galvanised steel, head thickness 4 mm, PU 10

Tines	14
Width (cm)	36
Number	02201/14

Tines	16
Width (cm)	42
Number	02201/16

Professional levelling rake (hardened, adjustable)

Robust straight grading rake with patented adjustability of the head angle for professional use. Insert socket, hardened, galvanised steel, head thickness 4 mm, PU 10

Tines	14
Width (cm)	36
Number	02202/14

Tines	16

Meadow rake

Rake for picking up hay and cut grass on meadows. Insert socket, galvanised, PU 10

Width (cm)	75
Tines	22
Number	02292/75

Width (cm)	100
Tines	28
Number	02292/100

Furrow maker (adjustable)

Furrow maker with patented adjustable head angle for creating uniform seed planting furrows, variably adjustable distance between furrows. Galvanised steel, PU 5

Width (cm)	75
Tines	6
Number	02238/75

Width (cm)	120
Tines	10
Number	02238/120

Aluminium rakes

Aluminium rake (top), light metal rake (bottom)

Aluminium rake (adjustable)

Aluminium rake with patented adjustable head angle for all fine and light smoothing or sowing work, rear edge usable as smoothing. Aluminium, galvanised insert socket, PU 5

Width (cm)	75
Struts	Without
Tines	28
PU	5
Number	02218/75

Raking profile (adjustable)

Raking profile with patented adjustable head angle for raking sandy and similar surfaces. Aluminium, galvanised insert socket, PU 5

Cultivators

Cultivator, hoe

Extremely sturdy tool for loosening soil and removing weeds, straight tines for working dung and fertilizers into the soil. Forged, welded-on socket, galvanised, PU 10

Tines	3
Width (cm)	10
Length (cm)	14
Number	02304/3

Grubber

Small cultivator for loosening soil and removing weeds, for working in dense vegetation. Powder-coated, PU 10

Tines	3
Width (cm)	9
Number	02301

Aerator

For targeted loosening in perennial and vegetable beds, for pulling individual seed furrows. Powder-coated, PU 10

Tines	1
Tine shape	Furrow
Tine width (mm)	35
Number	02308

Weeding hoe

Three tines to loosen the soil and for weeding, blade for cutting up soil and roots. Powder-coated, straight blade, three tines, PU 10

Tine shape	Furrow
Tines	3
Number	02306

Cultivator

Cultivator for even, pulling work. Powder-coated steel, 3 tines, different tine shapes, PU 10

Tine shape	Furrow
Tine width (mm)	35
Width (cm)	17
Number	02302

Tine shape	Lance
Tine width (mm)	16
Width (cm)	11
Number	02303/3

Handle for cultivators

Handle for cultivators. Ash wood, shaped, diameter 28 mm, PU 10

Length (cm)	140
Number	02900/140

Length (cm)	160
Number	02900/160

Lightweight and heavy hoes

Professional beet hoe

For loosening cultivated plants. Galvanised, hardened, exchangeable blade, blade sharpened on one side, PU 10. Replacement blade, PU 1

Width (cm) **10**
Number 02120/10

¹ The handle length is measured from the end of the handle to the center of the axle.

Land preparation tools

Soil drill (top), lifting tongs (middle), turf edger (bottom)

Soil drill

Robust tool for drilling holes for posts etc. in earthy, clayey or sandy soil. Steel, powder-coated, large sturdy tip, PU 1

Diameter (mm)	70
Number	04731/70

Diameter (mm)	90
Number	04731/90

Diameter (mm)	150
Number	04731/150

Post hole digger

Robust tool for drilling holes for poles and masts of different diameters. High-strength steel blades, ground, powder-coated, PU 1

Range (mm)	ø 150 – 200
Height (cm)	150
Number	04734/200

Range (mm)	ø 190 – 260
Height (cm)	225
Number	04734/260

Rammer

For solidifying work, damper for absorbing lateral impacts. Base area 20 × 20 cm, various handles, steel, rubber damping, PU 1

Handle	T-handle
Weight (kg)	9,0
Height (cm)	85
Number	04627

Handle	Straight
Weight (kg)	9,2
Height (cm)	115
Number	04626/20

Lifting tongs

For lifting kerbstones, virgin stones, concrete elements, pipes, etc. Steel, exchangeable rubber grip surfaces, PU 1

Span (cm)	0 – 37
Depth	20
Max. permitted load (kg)	80
Weight (kg)	4,9
Number	04630

American shovel, Ames

Original spade shovel for using with plants and in soil. Carbon steel, 10 years warranty on the blade, tread shaped to the front, swan's neck, long handle guide, PU 6

Handle	Ash
Ames brand	Union Tools
Blade L x B (mm)	270 x 210
Number	02400

Repl. handle 02906

American shovel, fiberglass

Original spade shovel for using with plants and in soil. Carbon steel, 10 years warranty on the blade, tread shaped to the front, swan's neck, long handle guide, PU 6

Handle	Fiberglass
Ames brand	True Temper
Blade L x B (mm)	270 x 210
Number	02402

Spade Shovel, American-type, with serrated edge, made in Germany

Universal shovel with serrated edge for easy penetration into rooty soil, 10 years warranty on the blade. Hardened blade, tread formed to the rear, long handle guide, ash shaft, PU 6

Handle	Ash
Blade L x B (mm)	300 x 220
Number	02415

Aluminium shovel (Hallenser shape)

Multi-purpose scoop with for scooping snow, dirt and refuse. Aluminium, with upstand, galvanised steel edge, riveted socket, PU

Size	7
Dimens. W x D (cm)	320 x 340
Number	02485/7

Size	9
Dimens. W x D (cm)	370 x 380
Number	02485/9

Shovel handle	Ash, 130 cm
Number	02915/130

Spade, gardener's shape

Classic spades from IDEALSPATEN for demanding work. High-quality tempered steel, double spring, steel step sleeves, ash T-handle 85 cm, PU 1

Model	IDEAL spade
Design	Professional
Blade L x W (mm)	285 x 185
Riveting	Double
Number	02425

Model	PIONIER spade
Design	All-rounder
Blade L x W (mm)	280 x 190
Riveting	Single
Number	02426

Turf edger

For separating overhanging grass accumulations on grass edges. Forged, honed blade, steel tube, clear varnished, T-handle, height 99 cm, PU 1

Handle width (cm)	30
Blade width (cm)	21
Number	04801

Winter tools

Snow shovel aluminium

Light snow shovel with galvanised steel edge for shoveling medium quantities of snow. Aluminium, steel socket, without handle, PU 10

Blade W × D (mm) 500 × 340

Number 02900/140

Length (cm) 160
Number 02900/160

Snow shovel handles

Handles for snow shovels. Handle diameter 30 mm, PU 10

Length (cm) 130
Material Wood
Number 02904

Made in Germany

Firewood handling and fire protection

Firewood rack single

Sturdy rack for outdoor use with weather protection. Galvanised sheet steel, with roof, for self-assembly, with assembly instructions, PU 1

W × D × H (cm)	100 × 44 × 145
Weight (kg)	12,9
Volume (m ³)	0,45
Number	07519/100/02

W × D × H (cm)	75 × 44 × 170
Weight (kg)	11,8
Volume (m ³)	0,37
Number	07519/75/02

Double firewood rack

Sturdy rack for outdoor use with weather protection. Galvanised sheet steel, with roof, for self-assembly, with assembly instructions, PU 1

W × D × H (cm)	100 × 80 × 200
Weight (kg)	27,3
Volume (m ³)	1,2
Number	07520/100/02

Stacking aid for firewood

Rack for storing firewood in garages and basements. Galvanised sheet steel, for self-assembly, with assembly instructions, PU 1

W × D × H (cm)	120 × 44 × 120
Weight (kg)	7,1
Volume (m ³)	0,45
Number	07521/120/02

W × D × H (cm)	170 × 44 × 120
Weight (kg)	7,9
Volume (m ³)	0,65
Number	07521/170/02

Sawhorse

Foldable sawhorse with centrally positioned crossbar that can be adjusted to different positions. Galvanised sheet steel, for self-assembly, with assembly instructions, PU 1

W × D × H (cm)	84 × 68 × 87
